

We strongly oppose the propose rule regarding recording our programming for a period of 60 to 90 days, 6 a.m. - 10 p.m. We are a very small radio station and this rule if implemented would require us to hire an additional person to keep up with it. This would be cost prohibitive at this time as our revenues are very limited. Please do not implement such a rule for small time broadcasters, such as ourselves. Thank you for your consideration!
